

bond, or if you know of a desirable about five feet thick. Besides mining property that is for sale, please write to or call upon the mining editor of the Arizona Republican.

THE METAL MARKET.

New York, Oct. 18 .- Silver certificates, 5814; silver bars, 5814; Mexican dollars, 44%; copper, nominal, brokers', \$11.1214; exchange, \$11; lead, steady; brokers,' \$3.75; exchange, \$3.90.

NOT A POOR MAN'S COUNTRY.

Reports are going out about the Yaqui gold region which are deceptive ment. In fact a number have already gone into Sonora on the faith that all they had to do was to find the Yaqui once with pans, rockers and long Toms, as was done in early days in California.

and intelligent effort will demonstrate that the field is of no mean extent. plant is to be constructed. But it is a field in which capital and In Aravaina canyon Gra experience are required to work. The mining ground has first to be secured from the government which is of itself no small item of expense. In Mexico one cannot go out, take up one

or more claims and hold them indefinitely by filing a record of the claims taken, paying a small fee and doing Burgess mine, eight miles. When the a little mythical work. Instead the claim has to be "denounced" at the mining office of the district which requires quite a fee, surveyed by an en-gineer who charges likewise a heavy fee, and when his survey is accepted and title granted the claimant has to play ten dollars for every "pertenca" of ground. (A pertencia is an area measuring 100 meters on each side) And this payment of ten dollars per pertenencia has to be made annually thereafter or the claim is forfeited. Then the placers so far as discovered are not to be worked with pan cr rocker, as were the early California mines. Rather are they hydraulicing or sluicing propositions in which large bodies of gold bearing earth have to be moved by the force of heavy volumes of water to develop, conduct and handle which need the cooperation of associated capital. It takes money and lots of it to sluice or hydraulic away a bank of seath or hydraulic away a bank of earth twenty to forty feet in depth to get at the gold on the bed rock. Such ex-penses go far to make it practically impossible for a poor man to embark in placer mining in Mexico; and those who think that with their prospecting pan or rocker, with a few weeks' sup-ply of provisions, they can wash out fortunes are doomed to bit er disap-

them a disappointment. THE WINNIFRED MINE.

Mrs. Anna White brought to town yesterday some very fine specimens of gold bearing ore from her Winnifred mine northeast of Phoenix. The Winnifred is near the Union mine and mill and is less than a mile from the proposed route of the Rio Verde ca-A. C. Shmall, who has just finished the assessment work on this mine, is a miner of twenty-five years' experience in Arizona. In conversation with a Republican reporter yes-terday he said that the Winnified ledge was the most promising and physicians retired. easiest worked of any in the entire it is probable that much better results could be secured by roasting.

Mrs. White placed the specimens on exhibition at Hoadley, Turnbull Co.'s office in the Adams hotel.

NUGGETS FROM THE HILLS.

Superintendent Thompson at Resemont, on the Chicago mine, at a depth of 250 feet has a twenty foot body of sulphide ore.

J. R. Halsey of Kingman received a return from a shipment of ore to the Pueblo smelter. It gave 3,056 a hope of rescue from the fate to ounces silver and 7.7 ounces gold to which morphine had driven its posthe ton.

The Gopher Mining company is working three shifts on its Gopher mine in Chaparral. The shaft is down 200 feet and at this depth ev-

erything indicates permanency. Development work on El Tiro mine in the Altar district, is being vigor-ously prosecuted. The shaft, which is now down 140 feet, is to be sunk another 100 feet, and the work of sinking will be pushed as rapidly as

possible. The Anglo-Mexican Mining company limited, operating mines at San Jose de Gracia, in the state of Sinaloa, has recently completed a sixtyton cyanide plant, which has been working very satisfactorily since the

Last month the Kingman sampler sold to the Pueblo smelter over \$28,-000 worth of ore. And yet the people nothing is being done in our mines. All ore shipments are the product of chloriders, no company is now shipping ore.-Mohave Miner.

The rich strike made at a dep h of 150 feet on the Schuylkill mine at the legislature and dismissed, but Chloride still continues. The ore is some very sensational testimony was worth \$25 in gold and 1,000 ounces in presented. The populists have sev-

If you have a mine to sell, or to silver per ton, and the ore body is precious metals in the Schuylkill ore, it carries a high per cent of lead.

While working on the gravel claim of Frank M. Barnes, five miles below Bonelli ferry, workmen uncovered a mammoth bone at a depth of whirtyfive feet. The bone measured fortyin diameter. The bone is supposed to be from a mammal of prehistoric time.—Mohave Miner.

The steam hoist, boiler, rock cru her and other machinery for the Kasser Gold Mining company has arrived and been taken out to the mine. The 1,200 feet, and all the machine y is in their nature and which, if not cor-rected, will cause much disappoint- ordered by General Manager Miles Gibbons in Denver last summer.-Sil-

The Gold Cliff Gold and Silver Minriver and go to washing out gold at ing company, Wm. Johnson, superintendent, operates a mile east of the Commonwealth. The company has put down a shaft of 175 feet and some That rich gold diggings have already been found in the Yaqui region there is no doubt; and development ter to that of the Commonwealth. A hoist is being operated and a cyanide

In Aravaipa canyon, Graham county, the Grand Reef Mining company, J. W. Paine superintendent, is working thirty men, preparing for the erection of a large amount of new machinery. About 150 men are now at work building a road from the main road in Aravaipa canyon to the road is completed active work will commence on the mone.

J. W. Gerritt, owner of the Oro Plata mine, has leased to H. B. Hampton and William O'Day one hundred and fifty feet of ground in that property, on the main hunnel level. Al Janks has been also given a lea e on one hundred feet of gound on the same level. Owen McNeely has be n granted one hundred feet on the level and all the boys will begin active work the first of the coming week. The Oro Plata is now working more men and producing more pay ore them.

He was a very eccentric man and took the goods not for the purpose of theft. When arrested thousands of dollars worth of goods stolen from various hotels were found in his have Miner.

A PHYSICIAN'S SUICIDE.

He Wanted His Friend, a Fellow Practitioner, to Note H's Death.

Atlanta, Ga., Oct. 18.—Dr. Jerome G. Going is still feeling the effects of the shock which came to him in the early hours of yesterday morning, when a fellow practitioner, this roommate in the Hotel Alvin, bled to death before his eyes, and despite the best efforts of his practical hand.

The dead man is Dr. Theodore Monroe. He was the victim of morphine Men with means who can embark in large projects can find splendid opportunities for investment in the Yaqui gold fields; but all others will find Atlanta was to consult a specialist regarding the magnifications. and a suicidal impulse. Both he and regarding the morphine habit, which had fixed itself upon Dr. Monroe.

Dr. Monroe spoke of the aid that a willing physician might give to science even in the manner of his death. "If he contemplated suicide, for instance," he said, "he might so arrange that his last moments would be passed in the presence of a fellow practitioner, who would thus have the opportunity to study every manifestation of the approach of death." Monroe spoke smilingly, and Dr. Going laughed off his talk. Later he had reason to regret that he had missed the hint conveyed in his friend's words. After their conversation both

district. The ledge is now two feet wide and grows wider as depth is reached. The ore is partly free milling but as it carries considerable iron it is probable that much better resist of the reached. Dr. Going was falling into a light blood dripping to the floor, and when the clothes were turned down the horrified physician saw that his companion had, with quick, deft thrusts of a sharp knife, severed a number of large veins in his limbs and body.

Dr. Monroe turned a last faint smile upon his friend and then sank into a state of unconsciousness, from which he passed to that of death. Dr. Going's best efforts were of no avail. The hand that wielded knife had been too skillful to leave

so Dr. Monroe followed out his own ZEIGER'S HOTEL words. He died in the presence of a fellow practitioner. But Dr. Going

WILL KNOW WHERE HE IS AT.

Three Parties in Georgia Will Endorse Tom Watson for Governor.

Atlanta, Ga., Oct. 18 .- Arrangements were completed today which ZEIGER & CO., Prop'rs. will unquestionably make Thomas E. Watson, late candidate for the vice presidency, a fusion nominee for governor of Georgia. With or without his consent, his friends have entered into a deal whereby the nomination of Watson by the populists of the state will be endorsed by the republicans, the prohibitionists and the

farmers' alliance. The active factor in making the deal was State Senator Carter, who last year caused a political upheaval in the state by bringing charges of corruption against the superior court judges. These charges were tried by

are popular with the people throughout the state, and the prohibitionists annually poll a large number of votes. This combination, aided by the re-publicans and the farmers' alliance, will be able to put up the stiffest kind

of a fight, the result of which no man can safely predict. The gold democrats of the state, led by fo mer Secretary of the Interior Hoke Smith, cut no figure whatever, because there is scarcely a handful of them left. The regular democracy will likely nominate either Capt. Evan P. Howell or former Congressman Candler, who is now secretary of state.

NO CONSOLIDATION.

Volunteers and Salva ionists Will Remain Apart

New York, Oct. 18 .- Mrs. Bailington Booth fired the first gun of the fall campaign of the Volunteers at Cooper Union conight. Many prominent officers were present and the audience was a large one.

One purpose of the meeting was to contradict rumors that the Volunteers and the Salvation Army, from which it seceded, are to amalgamate. Mrs. Booth said there is no truth in the story, which she had traced to Detroit. Some of the members think hoist is capable of sinking 1,000 to Brigadier Miles originated it. They regard him as a traitor, because he came to the Volunteers from South Africa, where he had been working in the Salvation Army, and returned to the army after having been with the Volunteers only six weeks. The

Booths, however, say they do not be-lieve Brigadier Miles was a spy.

Mrs. Booth spoke tonight on "No Amalgamation." While she did not mention the Salvation Army by name, she denied repeatedly and in strong terms that the leaders of the Volum terms that the leaders of the Volunteers had any thought of amalgama-

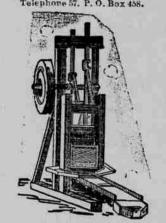

NOT A THIEF.

Yet Thousands of Dollars Worth of Goods Were Found.

New York, Oct. 18.—John H. Staats ex-superintendent of the Waldorf hotel, who was arrested three weeks ago on a charge of having stolen a large quantity of goods from the ho-tel, was today set free by Justice Cowing in the court of general ses-sions. Staats had been the superintendent of the hotel for some time. He had also been in the service of the Hotel Normandie and had been owner of a hotel in the south.

men and producing more pay one than rooms. He had not sold or pawned any other mine in the country.—Mo- a dollar's worth. Today the manager of the Waldorf appeared in court and pleaded to Judge Cowing for the man's dismissal. The judge suspend-ed sentence, as it was eviden that Mr. Staats was not a thief and had no idea of realizing any money from the sale of the goods he had taken.
